Professional Summary

Motivated and detail-oriented undergraduate engineering student with hands-on experience in full-stack development. Proficient in HTML, CSS, JavaScript, C, C++, and the MERN stack (MongoDB, MySQL Express.js, React, Node.js). Demonstrated ability to build and deploy web applications, manage version control with Git and GitHub, and work collaboratively in team environments. Passionate about leveraging technology to solve real-world problems and eager to contribute to innovative projects.

Skills

c++, python, HTML, CSS, JavaScript, Node.js, Express.js, MySQL, MongoDB, GitHub, vercel

Education

Smt Kashibai Navle College of Engineering | Pune, Maharashtra
Computer Science | 07/2026

Certificates

Career Skills In Software Development, Responsive web design

Projects

- **Student Database Management App: [FullStack Project]**

The Student Database Management App is a web-based platform designed to help educational institutions organize and access student Information in a secure and centralized database. It features an intuitive user interface for easy navigation, real-time updates for accurate information management, and robust security measures to protect sensitive data. The app supports various functionalities, including managing attendance records, grades, and contact information, making it a comprehensive solution for student administration.]
